DETAILED ACTION

1. The request filed on 1/17/06 for Continued Examination (RCE) based on parent Application No. 09/667,235 is non-responsive.
2. MPEP section 706.07 (h) states that in an RCE any newly submitted claims that are directed to an invention that is independent and distinct from the invention will be withdrawn from consideration and not entered. An RCE is not the filing of a new application. Applicant has submitted new claims that are not directed to the original claimed invention. The pending claims have been cancelled and new claims which do not further limit the originally claimed invention have been added. The Examiner finds that the new claims relate to a different aspect of the invention which overcomes the teachings of the cited references. This is evidenced by the Harris et al (5,878,416) reference which is seen to be a 102 reference on the new independent claim. Thus, the new claims relate to an invention that is independent and distinct from the originally claimed invention and will not be considered.
3. Applicant may want to consider filing a divisional application. See 37 CFR 1.111.
4. Applicant's request to reconsider and withdraw the 101, 102 and 103 regarding cancelled claims is moot.
5. Applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

Extensions of this time period may be granted under 37 CFR 1.136(a).
